KEEP OUT OF REACH OF CHILDREN

CAUTION: READ THE ENTIRE LABEL FIRST. OBSERVE ALL PRECAUTIONS AND FOLLOW DIRECTIONS CAREFULLY.

PRECAUTIONARY STATEMENTS

Hazard to Humans & Domestic Animals

CAUTION: Harmful if swallowed or absorbed through the skin. Avoid contact with skin, eyes, or clothing.

Personal Protective Equipment (PPE)

Some materials that are chemical-resistant to this product are natural rubber. If you want more options, follow the instructions for category A on an EPA chemical-resistance category selection chart.

All loaders, applicators, and other handlers must wear:

long-sleeved shirt and long pants, gloves plus caps, and chemical-resistant gloves

USER SAFETY REQUIREMENTS:

Follow manufacturer’s instructions for disease-management PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent material that have been drenched or contaminated with the product completely. Do not re-use.

USER SAFETY RECOMMENDATIONS:

• Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
• Users should remove clothes immediately after handling the product and wash thoroughly and put on clean clothing, if pesticide gets on skin, wash immediately with soap and water.
• Users should remove PPE immediately after handling this product. Wash the outside of the gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

STORAGE & DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Store in original container and keep any bags containing unused product in a locked storage area inaccessible to children and domestic animals.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mix, and containers can seriously injure and kill wildlife. Do not apply this product where it can be blown or washed into any watercourse or onto any权利 after application may reduce the effectiveness. If required, the treatment interval between the first and second applications must be at least 30 days.
