## MOUND / HOME PLATE CLAY™

### Diamond Pro Mound and Home Plate clay:

Diamond Pro® Mound/Home Plate Clay is a screened clay loam with a rich red color that readily conforms and binds to the existing surface. The loose clay easily tamps into holes, providing greater durability and requiring less maintenance. It can be used to construct, maintain, or repair pitcher's mound, bullpen, catcher's box, and batter's box.

#### Benefits:

- High clay content allows for greater compaction
- Ready to use, screened and richly colored
- Conforms easily to high-stress areas
- Reduces the need for frequent maintenance of high-stress areas
- Essential in constructing, maintain, or repairing pitcher's mound, bullpen, and home plate areas

#### Recommended Use:

- Baseball
- Softball
- Parks & Recreation
- Youth Leagues

#### Repairing:

- Broom off all loose dirt from the stress areas, lightly water.
- Add Diamond Pro Mound / Home Plate Clay in 1 inch layers.
- Tamp the Clay to a firm but level surface.

#### Rebuilding:

- Remove 2 to 4 inches of existing soil from the stress areas, lightly water.
- Add Diamond Pro Mound / Home Plate Clay in 1 inch layers.
- Tamp the clay to a firm but level surface, adding water as necessary.
- Repeat steps 2 and 3 until the new surface is level with old surface.

#### Availability & Specifications:

- 50 lb. Bags / 40 bags per pallet
- 1 ton = 40 bags
