**PRINCIPAL FUNCTIONING AGENTS**

Water soluble blue dye and components ineffective as a spray adjuvant .....................................................100.0%

Total .................................................................. 100.0%

---

**FIRST AID**

**IF SWALLOWED:**
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

**IF ON SKIN OR CLOTHING:**
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.

**IF INHALED:**
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

**IF IN EYES:**
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.
GENERAL INFORMATION

For turf and ornamental, aquatic, industrial, municipal, utility, and rights-of-way use only. Turf Marker Blue SELECT is a versatile, easy-to-use, non-toxic colorant for turf and ornamental, aquatic, industrial, municipal, utility, and rights-of-way applications of liquid pesticides and fertilizers. Turf Marker Blue SELECT shows applicators where they have sprayed and will help avoid costly oversprays and skips. Turf Marker Blue SELECT dissipates quickly in wet and dry weather and mixes completely with water soluble pesticides and fertilizers without affecting chemical efficacy.

DIRECTIONS FOR USE

Shake well before using. Turf Marker Blue SELECT application rates will vary depending on turf color, turf height, and spray application rates. For optimal rate application, experiment with the volume of spray solution and rate of Turf Marker Blue SELECT to find a rate that is functional and economical.

Suggested rates: 16-24 ounces per 100 gallons (190 mL per 100 liters) of spray solution treated. For smaller spray applications using backpacks and small sprayers, use 2-3 ounces per 3 gallons (50-75 mL per 10 liters).

STORAGE AND DISPOSAL

Store in original container only. Keep container tightly closed and do not allow water to be introduced into the contents of this container. Do not contaminate water sources by runoff from cleaning of equipment, disposal of equipment washwaters or spray waste. Do not store near heat or open flame. Do not contaminate food or feed by leak, spill, or disposal of product. Do not store with oxidizing agents or ammonium nitrate.

Disposal: Dispose of empty containers by triple or pressure rinsing or equivalent, adding rinsate to the spray tank, then offer for recycling, or reconditioning, or puncture and dispose of according to state and local authorities. If burned, stay out of smoke.

Note: According to the U.S. Environmental Protection Agency, Office of Pesticides and Toxic Substances, no clearance is required of this product under 40 CFR 180, subpart D for use on non-food crops. This product is not approved for edible or food crop use.

WARRANTY STATEMENT

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label, when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
