

Esteemed customers,

Last year was a difficult year for the whole world due to COVID-19. We at E-Z Weld were very lucky to count on your continued patronage over that time, and we were very happy to be able to provide you with quality solvent cement the whole year without increasing our price. However, market changes have drastically increased all our raw material, shipping, and labor costs and we can no longer absorb them.

In order to keep providing you with quality cement, we are announcing a **price increase** on all our products effective **April 5, 2021**. Below are the details of the price increase. Your account manager will be sending you a list with the updated prices.

▶ **CPVC - 11%**

▶ **PVC - 16%**

▶ **Primers - 20%**

▶ **Cleaner - 55%**

Our freight terms will also be updated. Effective April 5, 2021 the minimum order amount for prepaid freight will be \$2,000 and the minimum order amount will be \$500.

If you have any questions, please do not hesitate to contact your account manager.

We look forward to another great year together!
