Price Increase Announcement – Effective April 5th, 2021

To our valued customers,

While we previously implemented a 5% increase in January to account for budgeted cost increases, we are experiencing unforeseen increased raw material, manufacturing and transportation costs. We are cognizant of minimizing the impact this has on our customers, yet we must take action to address the new forecasts which are affecting our business.

This letter is to advise you that there will be a **2-4% price increase** across all brand classes within our Enclosures products, **effective April 5th, 2021.**

Orders on existing open quotes entered by April 5th for immediate release and shipment will be honored. Please note that pre-increase order volume may be limited based on previous purchase history. Updated pricing will be provided to all customers by **March 19th, 2021.**

As always, we are committed to providing superior products and services to continue to develop our business relationships. We know price increases can be a difficult subject and we thank you for your understanding and continued support. If you have any questions about the above changes, please do not hesitate to reach out to your local Oldcastle Infrastructure Sales Manager.

Yours sincerely,

Will Costanza
Vice President, Commercial
