

March 1, 2021

Dear Valued Partner:

Due to sustained upward movement in the costs of raw materials and packaging components for solvent cements, primers and cleaners we are faced with the necessity of increasing prices of our solvent-based products by 12% effective April 12, 2021.

Note that this increase only applies to chemical-based products and does not impact Christy's or Weld-On accessory items.

Our standard freight terms will also be updated effective April 12, 2021. The minimum for prepaid freight orders will be \$2,000 and the minimum order amount will be \$500.

The new Weld-On and Christy's price lists will be posted on our websites at <http://weldon.com/product-literature> and <https://tchristy.com/price-lists>.

Due to increased global demand and raw material limitations, purchase orders in excess of normal ordering patterns will be subject to review by your Weld-On National Sales Manager.

We will continue to operate with urgency to optimize our value chain and deliver high quality products.

Please contact me, your sales person or sales agent if you have any questions.

Thank you for your support and business.

Kind Regards,

A handwritten signature in cursive script that reads "Janet Reilly".

Janet Reilly
President, Weld-On
